

Connecticut MARS County Status Report Format

The county status report is a new type of message designed to simply and efficiently report conditions within a county to the appropriate authorities.

The report covers the status of a number of important public services in the referenced county. It uses a standardized system to report status ensuring consistency in reporting. Data used in the report can come from personal observation or from personal observations collected by other MARS members, amateur radio operators in ARES groups, or knowledgeable individuals. Specifically, the County Status covers the operational status of Public Power, Water, Sanitation, Medical Care, Transportation and Communications Systems.

The CNTY information set contains the city followed by 10 standardized fields:

Rocky Hill/09003/041625/Y/Y/Y/Y/Y/Y/G/EMA DIRECTOR Rocky Hill, CT /W1AW/
